

## **CFC Advisory Memoranda**

From time to time, the Office of CFC Operations issues memoranda that explains initiatives, sets timetables, interprets existing regulations, or otherwise informs the CFC community about matters affecting the campaign. These memoranda are dated and numbered by year and issuance (for example, “2001-2” means this is the second advisory memorandum issues in 2001.) CFC memoranda are disseminated to the CFC community by mail and are posted on the OPM website at [www.opm.gov/cfc](http://www.opm.gov/cfc).

As current CFC memoranda are issued, we hope you will use this section of your manual to compile them. However, not every advisory memorandum retains its relevance to the campaign indefinitely. Ultimately, every CFC Advisory Memorandum will be posted on our website for historical reference. If you want to obtain a copy of a CFC Memorandum not posted on our website or included in this manual, please contact Curtis Rumbaugh.
